Beginning in 2026, our prescription plan will be updated to ensure it remains competitive and continues to provide strong support for employee health and well-being. The goal is to continue to offer a robust, clinically appropriate, pharmacy benefit while carefully evaluating and responding to changes in the pharmacy landscape.

- Implementing a prior authorization for all weight loss medications, including GLP-1 medications approved as weight loss treatment (e.g. Wegovy, Saxenda)
- Implementing utilization management to ensure GLP-1 medications approved as diabetes treatment are reserved for diabetic patients (e.g. Ozempic, Mounjaro)

Medicare Eligibility

Any retiree or dependent of a retiree who becomes eligible for Medicare must enroll in Medicare Parts A and B. You must notify the company if you or any dependent becomes Medicare eligible during the year.

The non-Medicare individual(s) may continue coverage with FirstEnergy; however, the Medicare-eligible individual(s) will no longer be eligible for a group health care plan with FirstEnergy. FirstEnergy has engaged Via Benefits, a third party, to provide one-on-one assistance to assist Medicare-eligible participants in finding and enrolling in individual supplemental Medicare coverage.

FirstEnergy will notify Via Benefits to mail an informational packet prior to you or your dependent(s) becoming Medicare eligible. It is important that you work with Via Benefits to obtain coverage once you become Medicare eligible. **Enrolling in a plan through Via Benefits is required in order to receive the company subsidy, if you are eligible for a subsidy. Contact Via Benefits at 855-535-7156 or www.viabenefits.com/firstenergy.**

Your Benefits Options

FirstEnergy offers you a choice of the following healthcare benefits. Rates for these plans can be found in Empower during the open enrollment period.

- Medical and prescription drug
- Vision

Medical

Anthem Blue Cross Blue Shield (Anthem) is the carrier for all FirstEnergy medical plans.

- Consumer HDHP
- Base PPO

In-network preventive care is covered at 100% – with no requirement to satisfy a deductible. However, if a diagnosis is detected during a preventive exam, the services would be subject to deductible and coinsurance. A list of in-network preventive care can be found at www.anthem.com/preventive-care.

Consumer HDHP

The Consumer HDHP is a high-deductible health plan (HDHP) that combines medical and prescription drug expenses into one plan. The plan has a lower premium in exchange for a higher deductible.

With the exception of preventive care, the negotiated rates for eligible expenses are your responsibility to pay until you reach your deductible. Once you have met your combined medical and prescription drug annual deductible, the plan begins paying 80% of your eligible in-network expenses.

For two-person or family coverage, the deductible can be satisfied by any combination of family members, but an individual would never need to satisfy more than the individual deductible or out-of-pocket amount.

Base PPO Plan

In the Base PPO plan, you are required to satisfy your annual deductible before the plan begins paying 80% of your eligible in-network expenses.

For two-person or family coverage, the deductible can be satisfied by any combination of family members, but an individual would never need to satisfy more than the individual deductible or out-of-pocket amount.

Anthem's Network

If you use physicians and medical facilities that are in the Anthem network, you will pay much less compared to accessing out-of-network care. You can find out which doctors and medical facilities are in Anthem's network at www.anthem.com.

Prescription Drug

FirstEnergy's medical plans include prescription drug coverage through CVS/Caremark. If you enroll in the Consumer HDHP, the prescription drug deductible, coinsurance and out-of-pocket maximum are combined with the medical plan. Prescription drug charges are applied to the combined deductible before benefits are paid. If you elect the Base PPO medical plan, your prescription drug expenses are subject to the deductible, coinsurance and out-of-pocket maximums of the prescription drug plan.

All FirstEnergy prescription drug plans have a generic drug rule. If you choose a non-preferred brand-name drug and there is a generic available, you will pay the brand coinsurance and the difference in cost between the generic and brand-name drug. If a generic is not available, you will pay just the brand coinsurance. In addition, no coverage is provided for prescriptions when an over-the-counter medication is available.
